SKILLS

- **Programming:** C, C++, Java, Python, JavaScript, SQL, Data Structures, OOP
- **Web Development:** HTML, CSS, JQuery, JavaScript, TypeScript, React.js, Redux, Node.js, Express.js, PHP, Tailwind CSS, Bootstrap, REST APIs
- **Databases:** MongoDB, MySQL
- **Data Analysis:** Excel, Power BI, Pandas, NumPy, Matplotlib
- **Tools:** Git, GitHub, Postman, XAMPP, Docker
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Adaptability

EXPERIENCE

- **Techpile Technology Pvt. Ltd., Lucknow** 2025 – Present
Full Stack Developer Intern
 - Developed and maintained MERN stack applications with RESTful APIs.
 - Optimized backend performance and database queries.
 - Collaborated with team using GitHub for version control and code reviews.

PROJECTS

- **Farm Advisory & Weather Forecast System** Jan 2024 – Mar 2025
 - Designed and developed a responsive web-based platform to assist farmers with real-time weather updates and crop advisory.
 - Integrated third-party weather APIs to fetch accurate forecasts and environmental data.
 - Implemented AI-based advisory features to suggest suitable crops, fertilizers, and farming practices.
 - Established a discussion forum module to enable farmers to share knowledge and resolve queries collaboratively.
 - Focused on clean UI, accessibility, and mobile responsiveness for rural usability.
 - Tech Stack:** HTML, Tailwind CSS, JavaScript, PHP, XAMPP
- **AI Telemedicine Bot** Feb 2024 – Apr 2025
 - Developed an AI-powered chatbot to provide preliminary medical guidance and health-related information.
 - Integrated AI APIs to analyze user symptoms and generate relevant responses.
 - Created an interactive and user-friendly chat interface using modern frontend practices.
 - Executed feedback-driven conversation flow to continuously improve response accuracy and relevance.
 - Aimed to reduce basic healthcare accessibility gaps through automated assistance.
 - Tech Stack:** HTML, CSS, JavaScript, AI APIs
- **ERP-Based Student Management System** Aug 2025 – Oct 2025
 - Built a full-stack ERP application to manage student records, faculty data, courses, admissions, and attendance.
 - Implemented role-based access control with separate dashboards for Admins, Teachers, and Students.
 - Constructed a secure RESTful APIs for seamless frontend-backend communication.
 - Optimized MongoDB queries for efficient data retrieval and scalability.
 - Developed responsive dashboards with advanced search, filter, and data visualization features.
 - Tech Stack:** MERN (MongoDB, Express.js, React.js, Node.js), REST APIs, JWT, Tailwind CSS

CERTIFICATIONS

- MERN Stack Development — Techpile Technology Pvt. Ltd. Jul 2025
- Cloud Computing — NPTEL Apr 2025
- Mastering Java with GUI development— Lovely Professional University Jul 2025
- Data Structures and Algorithms — CSE Pathshala Mar 2024
- Programming Certifications in C, C++, and Java Apr 2025

ACHIEVEMENTS

- Solved **850+** DSA problems across platforms including **LeetCode (600+)** and **GeeksforGeeks (250+)**.
- Actively participated in hackathons and coding events.
- Recognized for technical project presentations.

EDUCATION

- **Lovely Professional University** Punjab, India
B.Tech in Computer Science Engineering 2023 – 2027
CGPA: 8.43
- **St Paul's Inter College** Uttar Pradesh, India
Intermediate 2022 – 2023
Percentage: 86.4
- **St Paul's Inter College** Uttar Pradesh, India
Matriculation 2020 – 2021
Percentage: 92.8
